

MIRAGE

2019 Owner's Handbook

Drive your Ambition

PLEASE PLACE COPIES OF THE FOLLOWING ITEMS IN THIS BOOKLET:

1. Pre-Delivery Inspection Form (Customer Copy)
2. Triple Diamond Delivery Checklist (Customer Copy)
3. Salesperson or Key Dealership Contact's Business Card

Thank you for buying a Mitsubishi Mirage. There's no doubt you've already realized how well your car drives on the open road. What you may not know is all the great features that help your car perform the way it does. In the pages ahead we're going to run through the basics and prepare you for the road.

We hope you will visit the Mitsubishi Owner's site where we store the latest Mitsubishi news and special offers. Here you can also keep track of your car's warranty and servicing needs, get Roadside Assistance Information and tap into other owner-centric details. Just log on to WWW.MITSUBISHICARS.COM/OWNERONLY.

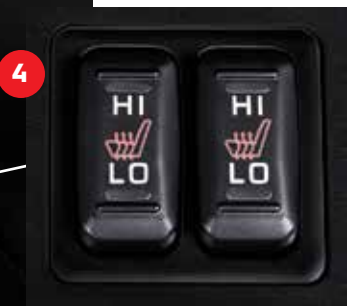

Some of the information contained in this booklet may not be correct due to product changes which may have occurred after the time it was published. Mitsubishi Motors North America, Inc. reserves the right to make changes at any time, without notice, to prices, color, materials, specification and models.

CONTROLS

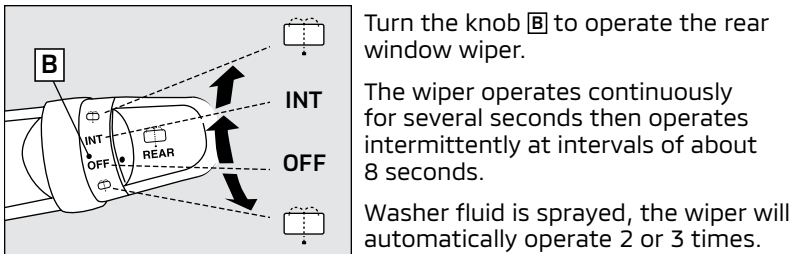

WINDSHIELD WIPERS (MIRAGE)

WINDSHIELD WIPERS (G4)

REAR WINDOW WIPER AND WASHER (MIRAGE)

SIDE MIRROR ADJUSTMENT

The side mirrors can be adjusted when the ignition switch is in the "ON" or "ACC" position or the operation mode is put in ON or ACC.

Move the lever **A** to the same side as the mirror you wish to adjust.

HEATED SEAT SWITCH (IF EQUIPPED)

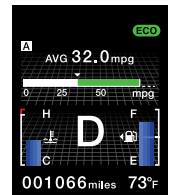

POSITION ACTION

POSITION	ACTION
HI	For quick heating
NEUTRAL	Heater off
LO	Keeps seat warm

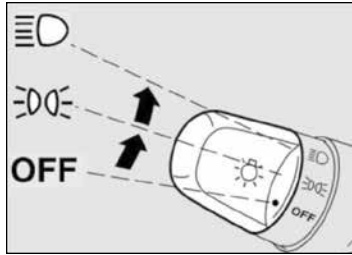

MULTI-INFORMATION DISPLAY SWITCH

Each time the multi-information display switch is operated, the buzzer sounds and the multi-information display changes between information such as warnings, trip odometer, average and momentary fuel consumption, distance range, etc.

REGULAR HEADLIGHTS

-  Headlights and other lights on.
-  Parking, tail, front and rear sidemarker lights, license plate and instrument panel lights on.
- OFF** All lights off.

CRUISE CONTROL (IF EQUIPPED)

- A** - **CANCEL**: Used to deactivate the set speed driving.
- B** - **RES +**: Used to increase the set speed and to return to the original set speed.
- C** - **SET -**: Used to reduce the set speed and to set the desired speed.
- D** - **ON/OFF**: Used to turn on and off the cruise control.

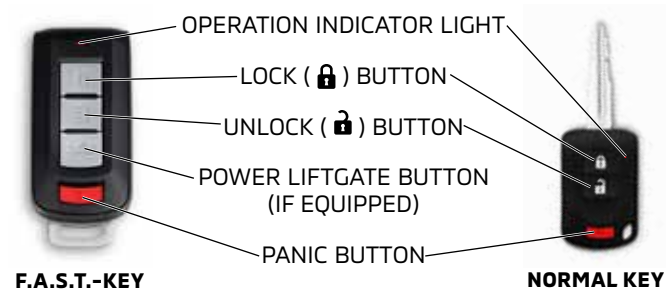

NOTE: When operating the cruise control switches, press the cruise control switches correctly. The set speed driving may be deactivated automatically if two or more switches of the cruise control are pressed at the same time. Minimum speed to operate cruise control is about 25 mph.

TEMPERATURE INDICATOR LAMP OPERATION

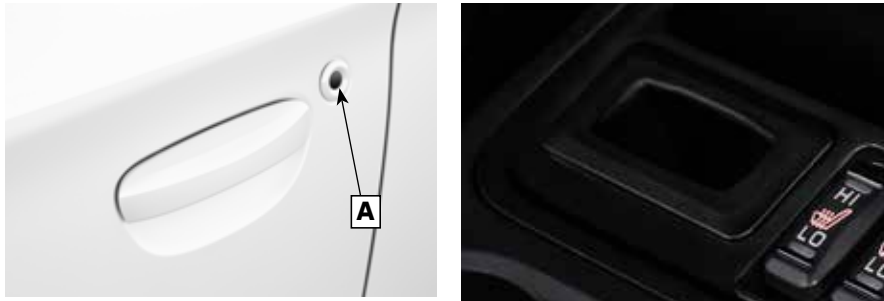

- 1. TEMPERATURE INDICATOR LAMP ILLUMINATED GREEN**
When the temperature indicator lamp is illuminated Green this indicates the engine has not reached normal operating temperature.
NOTE: This will result in cooler heater outlet temperatures until engine reaches normal operating temperatures.
- 2. TEMPERATURE INDICATOR LAMP OFF**
When the temperature indicator lamp is Off this indicates the engine is at normal operating temperature.
- 3. TEMPERATURE INDICATOR LAMP ILLUMINATED RED**
When the temperature indicator is illuminated Red this indicates the engine is overheating
NOTE: If the engine is overheating, find a safe place to park the vehicle, then shut the engine off and call Roadside Assistance as continued driving could cause the engine to fail.

KEYLESS ENTRY SYSTEM

F.A.S.T.-KEY (IF EQUIPPED)

While carrying the F.A.S.T.-KEY, press the driver's door lock/unlock switch **A**.

IF THE F.A.S.T.-KEY IS NOT OPERATING PROPERLY

Remove the manual key by releasing the key from the remote. Insert the key into the door to unlock the door. Then to start the engine, place the remote into the FAST Key slot located on the front center instrument panel.

REARVIEW CAMERA

When the vehicle is placed in Reverse, the rearview camera system automatically activates. A wide-angle view behind the vehicle is shown.

START/STOP ENGINE SWITCH (IF EQUIPPED WITH F.A.S.T.-KEY)

While carrying the F.A.S.T.-KEY within the operating range, the Start/Stop Engine Switch can be used to start the engine.

- Move the selector lever in "P" position and hold the brake pedal down. Push the Start/Stop Engine Switch.
- To stop the engine, stop the vehicle completely and move the selector lever to "P" then press the Start/Stop Engine Switch.

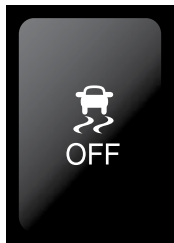

***If you have to bring the engine to an emergency stop while driving, press and hold the Start/Stop Engine Switch for 3 seconds or more, or press it quickly 3 times or more.**

- If you press the Start/Stop Engine Switch without depressing the brake pedal, you can change the operation mode in the order of OFF, ACC, ON, OFF.

*** If the engine cannot be started by depressing the brake pedal, depress the brake pedal more firmly than usual with the right foot. Then, press the Stop/Start Engine Switch.**

- If the engine cannot be started or the operation mode cannot be changed, check the position of the F.A.S.T.-KEY or the battery performance of the F.A.S.T.-KEY.

ACTIVE STABILITY CONTROL (ASC) OFF SWITCH

You can deactivate the system by pressing down the "ASC OFF" switch for 3 seconds or longer. When the ASC is deactivated, the display/indicator will turn on.

To reactivate the ASC, momentarily press the "ASC OFF" switch; the display/indicator is turned off.

TIRE PRESSURE MONITORING SYSTEM (TPMS)

The Tire Pressure Monitoring System light illuminates when one or more of your tires is significantly under inflated. Please note that changes in the outside temperature may decrease tire pressure causing the TPMS light to turn on. If the TPMS light remains illuminated, check your tire pressure. If the warning light illuminates, take the necessary measures referring to the owner's manual.

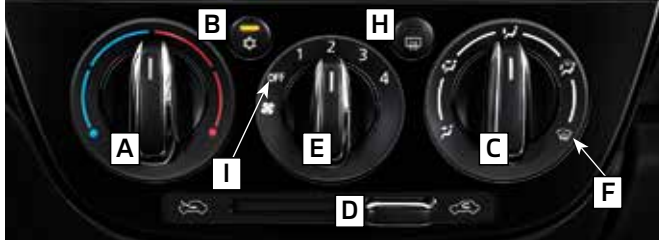

ECO INDICATOR

This indicator will be displayed when fuel efficient driving is achieved.

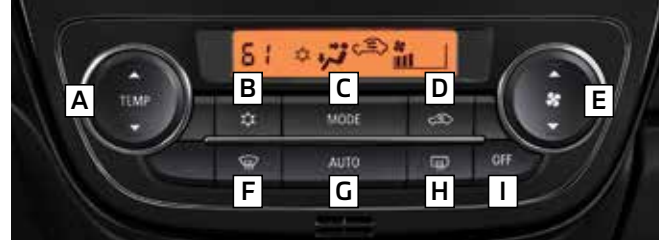

AIR CONDITIONING AND USB CONNECTION

MANUAL AIR CONDITIONING

- A** - Temperature Control Dial/Switch
- B** - Air conditioning switch
- C** - Mode Selection Dial/Switch
- D** - Air Selection Lever/Switch
- E** - Blower Speed Selection Dial/Switch

AUTOMATIC AIR CONDITIONING (IF EQUIPPED)

- F** - Defogger switch
- G** - AUTO switch
- H** - Electric rear window defogger switch
- I** - OFF switch

CONNECTING A USB OR SMARTPHONE DEVICE (IF EQUIPPED)

CONNECTING A USB OR SMARTPHONE DEVICE

1. Park your vehicle in a safe place and turn the ignition switch to the "OFF" position or put the Operation Mode in OFF.
2. Plug in the USB connecting cable that is supplied with your device and connect the USB end into the input terminal located in the floor console box.
3. Turn the ignition switch or the Operation Mode to the "ACC" position. Turn on the audio system.
4. Press **MENU** on your Mirage's audio touch screen.
5. Touch **USB**.
6. Touch **Folder** then select a track and begin playback.

The phone and cord are not included in the purchase of the vehicle.

LISTENING TO THE RADIO

- A** - Selects AM/FM
- B** - Selects type of Media (MP3 and BT-A)
- C** - Phone
- D** - Power and Volume knob
- E** - Seek stations up or down
- F** - Returns to the initial display
- G** - Tune stations / adjust sound settings

HD Radio® This HD Radio receiver enables:

PSD Program Service Data: Contributes to the superior user experience of HD Radio Technology. Presents song name, artist, station IDs, HD2/HD3 Channel Guide, and other relevant data streams.

HD2/HD3 Adjacent to traditional main stations are extra local FM channels. These HD2/HD3 Channels provide new, original music as well as deep cuts into traditional genre.

DIGITAL SOUND Digital, CD-quality sound. HD Radio Technology enables local radio stations to broadcast a clean digital signal. AM sounds like today's FM and FM sounds like a CD.

BLUETOOTH® INFORMATION

To Register a Bluetooth® Device:

1. Press the HOME key
2. Touch SETTING, then BLUETOOTH
3. Touch the NEW DEVICES

(IF NO BLUETOOTH® DEVICES ARE REGISTERED, STEP 3 IS NOT REQUIRED)

- If the Bluetooth® device is permitted to pair then it will allow the connection to be made.
- Supports Ver. 2.1 + EDR
- Supported profiles: Bluetooth® Audio A2DP(V1.1), AVRCP(V1.3); Hands-free HFP(v1.5); Phonebook transfer PBAP(v1.0)

When Bluetooth® is connected, 3 icons will display – the antenna level (1 to 6), battery, Bluetooth® connected (shown on the HOME screen).

TO ADJUST THE CLOCK

1. Press the HOME key
2. Touch SETTING, then CLOCK
 - The display changes to the clock setting where time and format can be adjusted.
3. Touch SET
4. To return to the settings, touch BACK
5. The time setting change is completed

SMARTPHONE LINK DISPLAY AUDIO (SDA) (IF EQUIPPED)**A** - Power and Volume Knob**B** - Touch Screen Display**C** - Home (return to initial display)**D** - Apps**E** - Audio**F** - Menu**ACCESSING AM OR FM STATIONS**

Make sure you are on the Home Screen and touch either FM or the AM button.

TO SET A STATION IN MEMORY

1. Once the station you want to save is shown on the screen, touch and hold the preset boxes on the touch screen until you hear a beep.
2. Once you hear a beep, the station will be saved to memory.

SETTING THE CLOCK

The clock adjustment procedure is as follows:

1. Press the HOME key
2. Touch SETTING, then CLOCK

The display changes to the clock setting where time and format can be adjusted.

3. Touch SET
4. To return to the settings, touch BACK
5. The time setting change is completed

USB INPUT

1. Park your vehicle in a safe place and turn the ignition switch to the "OFF" position or put the Operation Mode in OFF.
2. Plug in the USB connecting cable that is supplied with your device and connect the USB end into the USB port located in the lower instrument panel.
3. Turn the ignition switch or the Operation Mode to the "ACC" position. Turn on the audio system.
4. Press AUDIO to switch to the USB mode.
5. Depending on your USB device, it may take longer for playback to start.
6. Once the device is selected, playback starts.

BLUETOOTH® CONTROLS

For a list of compatible Bluetooth® devices, please go to <http://www.mitsubishicars.com/owners>

- A** - **SPEECH BUTTON (IF EQUIPPED)**
Change to voice recognition
- B** - **PICK-UP BUTTON**
Answer an incoming call
- C** - **HANG-UP BUTTON**
End a call or voice recognition

BLUETOOTH® PAIRING

1. Press the HOME key
2. Touch SETTING, then BLUETOOTH
3. Touch the NEW DEVICES. If the Bluetooth® device is permitted to pair then the SDA system will allow the connection to be made.
4. Go to your phone settings to confirm pairing

If you have paired multiple Bluetooth® devices with your SDA system, the Bluetooth® device that connected last will be selected and will automatically connect when it is detected.

TO SELECT A DIFFERENT DEVICE:

1. Press the HOME key
2. Touch SETTING, then BLUETOOTH
3. Touch the PAIRED DEVICES
4. Touch the "device name" to connect
5. This will complete the selection of the Bluetooth® device

Bluetooth is a registered trademark of Bluetooth SIG, Inc.

12 SMARTPHONE LINK DISPLAY AUDIO (SDA) (IF EQUIPPED)

ACCESSING APPLE CARPLAY™

1. Make sure your iPhone® has iOS8.0 or later and that you are using a genuine Apple Lightning® to USB cable.
2. Connect the Apple Lightning® to USB cable to your phone and to the vehicle's USB port in the lower instrument panel.
3. Apple CarPlay will automatically connect. To use the iPhone with CarPlay even while locked, choose "Allow" on your iPhone's screen after the first connection.
4. You can now operate Siri by pressing and holding the Steering Wheel Audio Speech button until prompted on the screen.

ACCESSING ANDROID AUTO™

1. Make sure your phone is running Android 5.0 or later.
2. You must download the Android Auto app from the Google Play Store. This process may take up to a couple of minutes.
3. Connect the manufacturer's phone cable from your phone into the vehicle's USB port located in the lower instrument panel.
4. Follow your phone's on-screen instructions until you are connected to Android Auto. You can press and hold the Speech button on the Steering Wheel Audio Controls to activate voice operation.

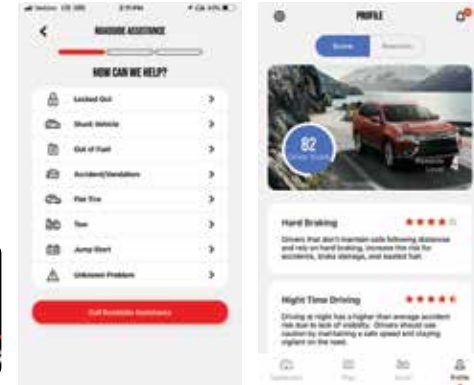

Apple CarPlay, iPhone, Siri and Lightning are trademarks of Apple Inc., registered in the U.S. and other Countries. Android, Android Auto, Google Play and other marks are trademarks of Google Inc.

MITSUBISHI ROAD ASSIST+ APP

When you use this app, you will be linked directly to Mitsubishi’s friendly roadside assistance team, who can quickly confirm your situation and dispatch the necessary service provider to your exact location using advanced GPS enabled technology. We will keep you informed of the details and an estimated time of arrival for the dispatched service provider, along with regular updates of the provider’s progress to your location.

IT’S SIMPLE:

1. Access the app store from an iPhone or Android device and search for the app name: Mitsubishi Road Assist+.
Requires iOS 8.0 or later or Android 4.4 and up.
2. Click on the app install button and read/agree to terms and conditions.
3. Add your profile information to the app.

PLUS, WITH THE MITSUBISHI ROAD ASSIST+ APP:

- Access exclusive insurance quotes to help you find a better rate on your auto insurance from participating carriers through the app.
- Access discounts and earn a Mitsubishi reward for safe driving. With the Mitsubishi Road Assist+ app you are given journey feedback and a score based on your driving habits using your smartphone sensors. With Mitsubishi rewards, complete levels and earn badges by achieving each level requirement in:
 - Mileage – Drive a number of miles and days
 - Hard Braking – Drive a number of trips with no more than a certain number of hard braking events
 - Speeding – Drive at a number of trips with no more than a certain number of speeding events

DOWNLOAD THE MITSUBISHI ROAD ASSIST+ APP TODAY FOR EASY ACCESS TO DISCOUNTS AND MORE!

* Effective with 2005 models, timed from the date first sold or put into use, whichever is earlier. Coverage excludes winching of vehicles off road, vehicles disabled in rally racing or other competitive events and vehicles used for commercial purposes, such as police, taxi, route delivery, livery or daily rental services. **This excludes the i-MiEV.**
Please see your warranty manual for details. MMNA reserves the right to limit and/or change available services.

Q: Is my phone compatible with the factory Mitsubishi Bluetooth® System?

A: Check the list of compatible phones, www.mitsubishi.com/owners to see if the phone is Bluetooth® supported.

Q: How do I use Bluetooth® Audio?

A: Please refer to your Owner's Manual for instructions.

Q: Why does my Anti-Lock Braking System (ABS) make a noise?

A: Each time your vehicle is started and driven a short distance, you will hear the sound of the ABS motor operating from the right front engine compartment. This is the normal sound the Anti-Lock Braking System makes when performing a self check.

Q: Why does the Audio System take so long to upload my music from my audio music device?

A: The Mitsubishi system can read multiple device structures in order to catalog the music files for easy playing and listening. Depending on the amount of music you have on your device, this may take a few minutes.

Q: How can I play music from my portable music player through the stereo system in my vehicle when equipped with the Bluetooth® Phone System?

A: Once your device is paired to the Bluetooth® Phone System, you can stream music from your device to your vehicle's sound system. No wires or cords. Your music stops and restarts at the same song when you exit and when you re-enter the vehicle. Voice commands are not available.

Q: My Mirage has a 12V accessory outlet. What devices can I plug in to it?

A: This outlet is protected with a 15 amp fuse. Always check the current draw rating of any device prior to use in the vehicle. If the device is rated above 10 amps, this could lead to circuit overload and the electrical fuse opening (no current flow).

Q: How can I get the MPG stated on the window sticker?

A: Vehicle driving styles will greatly affect MPG. Avoid sudden starts from a stop and let the vehicle coast to a traffic light. Both of these styles will increase mileage and reduce brake lining wear.

- Vehicles are designed to achieve the best fuel mileage when they are driven at the speed limits on the freeway. Avoid driving over 65 mph.
- Under inflated tires will increase rolling resistance and will reduce fuel mileage. Check tire pressure frequently to increase miles per gallon. Proper tire pressure also ensures optimum tire performance (including tire wear.)

Q: Why does my check engine light come on after I put gas in my car?

A: There are many reasons why your check engine light may illuminate. Before calling your dealership, make sure the fuel cap is fully engaged and you have heard three clicks when tightening it. After checking and hearing three clicks and the light is still on, contact your dealership.

Q: How do I use the emergency key when the F.A.S.T.-KEY battery or vehicle battery is run down?

A: If your Outlander is equipped with a Start/Stop Engine Switch and the door does not unlock, take the key out from the fob and unlock the door manually. Put the key back into the fob and insert it into the slot provided below the Climate Control Switches. Starting the engine and changing the operation mode should now be possible. Remove the F.A.S.T.-KEY from the key slot after starting the engine or changing the operation mode.

A CENTURY OF BIG IDEAS IN TWO SUBCOMPACT VEHICLES

For 100 years, Mitsubishi has been a pioneer in the automotive industry, incorporating visionary design with technology ahead of its time. Our drivers are more than just car enthusiasts--they share our conspicuously bold imagination and have the confidence to adhere to their convictions and follow their own paths in life. The Mirage and its more robust sibling the Mirage G4 sedan are two subcompact models that embody the adventure our drivers seek out. Not just kindred spirits - they both offer the top fuel-efficiency ratings in their respective classes, so even the most remote road trip destinations are within reach. Inside, you'll find the kind of high-tech features you want when you're checking places off your bucket list. And in keeping with our century-long legacy of offering affordably priced vehicles - while being backed by one of the industry's leading powertrain warranties - they're two of the best values on the market today. The Mirage and Mirage G4 - two seriously big ideas.
